DETAILED ACTION

Receipt of response dated 9-21-07 is acknowledged.

Upon careful review the following new rejections have been applied to the pending claims:

Claim Rejections - 35 USC § 112

1. Claims 1-58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Instant claims 1-8, 16 and 53 recite the phrase "at least about" in association with the amounts of cyclodextrin, and ClogP values, which is indefinite. The term at least requires a minimum amount of cyclodextrin and/or ClogP. However, the term about denotes vicinity, which allows for approximation and does not necessarily require the at least or the minimum amount. Thus, the terms at least and about are contradictory and hence are indefinite.

2. Claim 29 recites the limitation "nonionic surfactant" in line 2. There is insufficient antecedent basis for this limitation in the claim. Claims 29 and 30 recite that the cyclodextrin compatible surfactant is a nonionic surfactant, which does not agree with the specific compatible surfactants recited in claim 1. A review of the specification shows that the only cyclodextrin compatible nonionic surfactant is a block copolymer of ethylene oxide and propylene oxide, which is not recited in the markush group of surfactants of claim 1. Accordingly, there is no antecedent basis for claims 29 and 30.
